NODES			18

- CLASSIFICATION
- Cabinet Design & Fabrication
- 3D Modeling & Printing
- Interface Feedback System

PROPERTIES

W x L x H

12" x 12" x 9" (12" tall including base)

Realistic reproduction of mechanical keyboard f8 key, appx 15x scale.
Freestanding, float mounted to base with actuator rods and return springs.

W x L x H

12" x 12" x 9" (12" tall including base)

Realistic reproduction of mechanical keyboard f8 key, appx 15x scale.
Freestanding, float mounted to base with actuator rods and return springs.

MATERIAL CONDITIONS

Faux Stained Glass Marquee

Talk about what it is how it was made and the effect it had

Shou Sugi Ban

Talk about what it is how it was made and the effect it had

NODES18

the blob from the main page will carry over (transplant the full constellation of nodes to fit within a minimap. ideally we can compress them in a more artful creative way, but we can just resize directly for right now)

< -- hover info (the homepage hover effect) expands . The top left is pulled in from the homepage.

Each node will have a subsection.

Still figuring out the XOR htough, sometimes the actual page contnet/-case study might not want them to populate.

drag and drop order per case study page

home page dictate/populates sections i.e "classification"

Each project gets an overview page.

each project/case study page's accent color pulls from the "center" node color from the homepage.
